

The regulation of the French Authority of Accounting standards n° 2016-09 of December 2<sup>nd</sup> 2016 stipulates in addition to information about the consolidation scope, the companies establishing their consolidated accounts according to the International Financial and Reporting Standards must publish information about companies not included in the consolidation scope and material equity securities.

#### **Non consolidated controlled entities**

Non-structured entities under exclusive control, under joint control and subject to significant influence, and the controlled structured entities not included in the scope of consolidation are presented in the table below.

Grounds for non-integration in the consolidation scope column provides non-consolidated reasons : « No significant » as entities whose the consolidation would have no material impact on the group consolidated financial statement. « Extinctive management » are the entities in a liquidation process with not a significant character.
