ESG DATA COMPLEMENTARY TO THE 2025 SUSTAINABILITY REPORT

October 2026 (update)

CRÉDIT AGRICOLE S.A.

Unless otherwise indicated the following non-financial performance indicators should be read in conjunction with Crédit Agricole S.A.'s sustainability report published within the 2025 Universal registration document. These additional indicators are related to the 1st January to 31 December reporting period, and the scope of consolidation is similar to the scope of the sustainability report.

Measures related to the environmental footprint of Crédit Agricole S.A.'s operations

Energy

Indicators	Unit	2025	2024	2023
Energy consumption	**MWh**	**406,970**	**401,330**	**398,861**
Power	MWh	317,919	318,413	307,409
of which non renewable electricity	MWh	31,833	34,411	35,905
consumption excluding data centers	MWh	30,452	30,749	30,838
data center consumption	MWh	1,381	3,662	5,067
of which renewable electricity	MWh	286,086	284,002	271,504
consumption excluding data centers	MWh	209,579	203,701	209,732
data center consumption	MWh	76,507	80,301	61,771
Heating network	MWh	21,847	19,281	19,082
Cooling network	MWh	6,444	5,916	5,605
Gas	MWh	59,530	55,356	63,396
Fuel oil	MWh	1,229	2,364	3,369
Share of renewable electricity	**%**	**90**	**89**	**88**
Scope covered	%	100%	100%	100%

The share of renewable electricity in the energy mix has been increasing since 2023, reflecting the Crédit Agricole Group's commitment to reach 100% of renewable energy consumption by 2030.

CRÉDIT AGRICOLE S.A.

Water

Indicators	Unit	2025	2024	2023
Water consumption	**m3**	**677,133**	**669,710**	**617,970**
Scope covered	%	100%	100%	100%

Waste

Indicators	Unit	2025	2024	2023
Total amount of waste collected	**tons**	**4,286**	**4,222**	**3,875**
Of which reused, recovered or recycled waste	tons	3,551	3,648	3,202
