CREDIT UPDATE THIRD QUARTER AND FIRST NINE MONTHS 2025

WORKING EVERY DAY IN THE INTEREST
OF OUR CUSTOMERS AND SOCIETY

Disclaimer

This document has been prepared by Crédit Agricole S.A. on the basis of proprietary information and is available on its website (<https://www.credit-agricole.com/en/finance/debt-and-ratings>). It may not be reproduced by any person, or be forwarded or distributed to any person unless so authorised by Crédit Agricole S.A.. Failure to comply with this directive may result in a violation of applicable laws. None of Crédit Agricole S.A. or its affiliates, advisers, dealers or representatives takes any responsibility for the use of these materials by any person.

This document does not constitute regulated financial information on Crédit Agricole S.A. and Crédit Agricole Group. Regulatory financial information comprises the periodic financial results presentations, the financial reports, the registration document and the updates thereto, which are available on Crédit Agricole S.A.'s website (<https://www.credit-agricole.com/en/finance/financial-publications>). Some of, but not all, the data presented in this document is derived from the aforementioned regulatory financial information.

Save for the data that has been directly extracted from publications which have been reviewed by the Statutory auditors of Crédit Agricole S.A., the information contained in this document has not been independently verified. No representation or warranty expressed or implied is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information or opinions contained herein. None of Crédit Agricole S.A. or its affiliates, advisers, dealers or representatives, or any other person, shall have any liability whatsoever (in negligence or otherwise) for any loss arising from any use of this document or its contents or otherwise arising in connection with this document. This document is for preliminary informational purposes only and is not an offer to sell or the solicitation of an offer to purchase or subscribe for any securities and no part of it shall form the basis of or be relied upon in connection with any contract or commitment whatsoever. This document is not intended for distribution to, or use by, any person or entity in any jurisdiction or country where such distribution or use would be contrary to law or regulation.

Forward-Looking and Prospective Statements

This documents may contain forward-looking information and prospective statements about Crédit Agricole S.A., that are not historical facts. These statements include financial projections and estimates and their underlying assumptions, statements regarding plans, objectives and expectations with respect to future operations, products and services, and statements regarding future performance. Such statements do not represent profit forecasts within the meaning of European Delegated Regulation (EU) 2019/980 of 14 March 2019, as amended from time to time. Forward-looking statements may be identified by the words “believe,” “expect,” “anticipate,” “target” or similar expressions. Although Crédit Agricole S.A.'s management believes that the expectations reflected in such forward-looking statements are reasonable, investors are cautioned that forward-looking information and statements are subject to various risks and uncertainties, many of which are difficult to predict and generally beyond the control of Crédit Agricole S.A., that could cause actual results and developments to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. These risks and uncertainties include, but are not limited to, those discussed or identified in the annual reports and other filings with the French *Autorité des marchés financiers* made or to be made by Crédit Agricole S.A. Crédit Agricole S.A. undertakes no obligation to publicly update its forward-looking statements, whether as a result of new information, future events, or otherwise.

As of 31/12/2024

1. Exposures related to low-carbon energy made up of renewable energy produced by the customers of all Crédit Agricole Group entities, including nuclear energy-related exposures for Crédit Agricole CIB.
2. Portfolios of CAA (listed securities, listed securities under mandate, and unlisted securities) and of *Amundi Transition Energétique*.
3. Outstanding financing of Crédit Agricole Group, directly or through the EIB, according to the Group's internal sustainable assets framework.

ESG AMBITIONS

NON-FINANCIAL RATINGS

1. ESG risk score on a reverse scale (100-0): the lower the score, the better the ESG risk

2. C+ is the best ESG rating assigned by ISS ESG in its Commercial Banks & Capital Markets sector.

Crédit Agricole Group Q3-25 Highlights

SUSTAINED ACTIVITY IN ALL BUSINESS LINES

- Retail Banking in France: continued upturn in home loan production from the low point at the start of 2024 (+18% Q3/Q3 with production rate of 3%); corporate loan production remains buoyant (+14% Q3/Q3)
- International loan activity still dynamic
- Insurance: high premium income (+21% Q3/Q3 to €11.8bn) driven by all activities and strong net inflows in life insurance
- Asset Management: record assets under management and strong net inflows (+ €15bn in Q3) driven by MLT
- CAPFM: continued strong production (+3.7% Q3/Q3 to €12bn), balanced between traditional consumer finance and automotive activity production
- CIB: record third quarter and nine-months

CRÉDIT AGRICOLE GROUP Q3-25 HIGHLIGHTS

HIGH REVENUES THAT CONTINUE TO GROW

Q3/Q3 change in revenues (€m)

Retail Banking (Regional Banks, LCL & IRB-International retail banking),
 Asset gathering (insurance, asset management and wealth management), SFS: Specialised financial services

(1) Scope effect of Amundi US deconsolidation: -€85m in revenues

Retail Banking: Regional Banks and LCL enjoyed gradual repricing of loan stock (NII +13% Q3/Q2 for RB and stable for LCL) including the decrease in the cost of resources as well as good fee and commission income. CA Italia driven by dynamic fee and commission income on assets under management offset the slight decrease in NII.

Asset Gathering: insurance revenues (+6.3%) fuelled by Savings/Retirement offsetting a rise in Property & Casualty claims (due to bad weather and fires) and a narrowing of the technical margins in creditor insurance. Asset management revenues: +5.8% Q3/Q3 excluding scope effects ⁽¹⁾ Victory Capital; Indosuez Wealth Management: boosted by increase in commissions, but impacted by a Degroof-Petercam integration step.

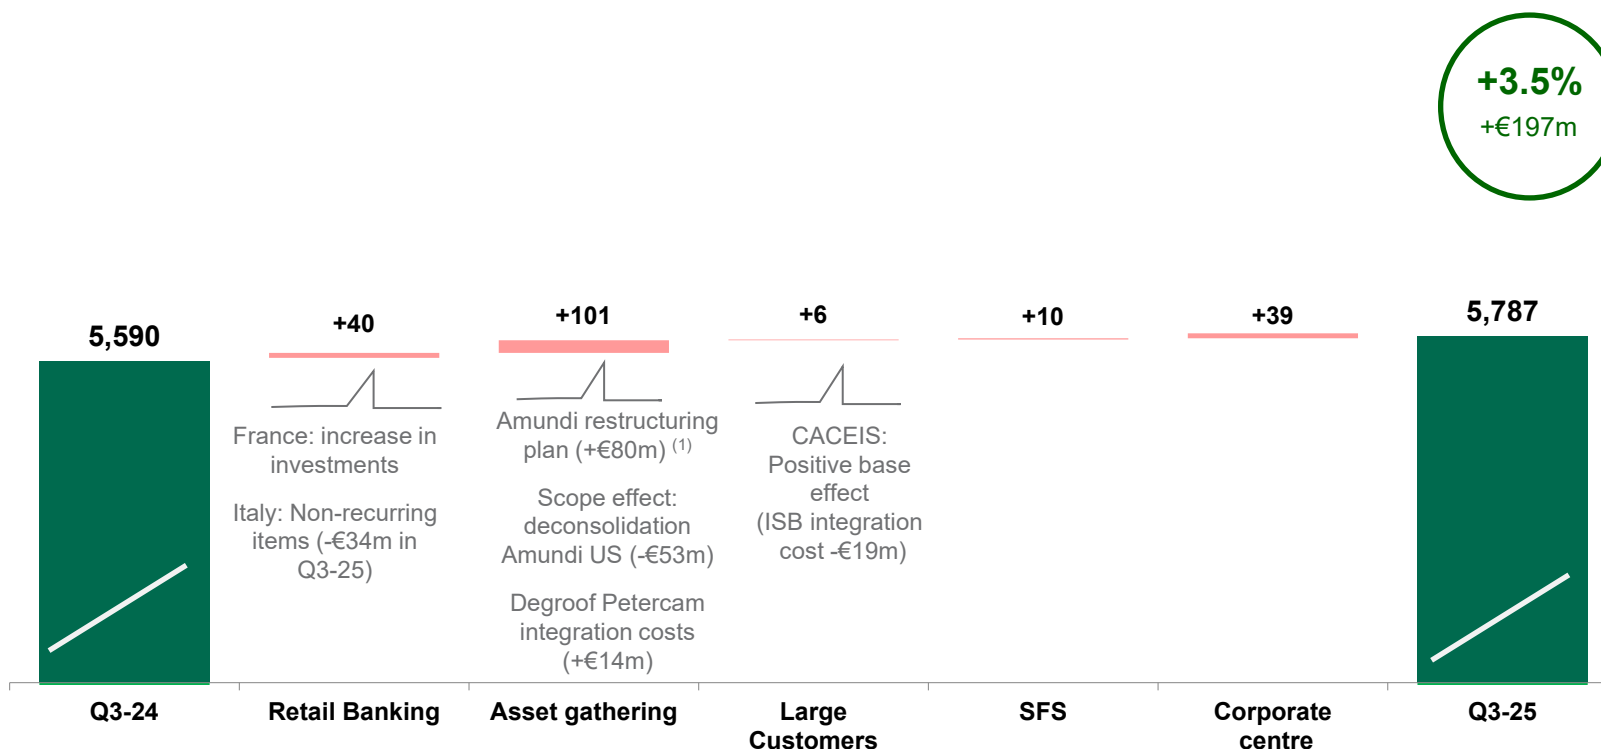

Large Customers: CIB record revenues compared to a high 2024 base; CACEIS revenues down slightly Q3/Q3 due to the planned exit of former RBC customers, despite the positive scope effect linked particularly to the takeover of Degroof Petercam's depository banking activities; good performance of NII.

SFS: CAPFM positive price effects Q3/Q3 and improved production margin rate (+12bp Q3/Q3), which offset the decline in insurance revenues; CAL&F: lower margins on factoring

CRÉDIT AGRICOLE GROUP Q3-25 HIGHLIGHTS

(1) Cost of risk for the last four quarters divided by the average of the outstandings at the start of all four quarters of the year.

(2) Annualised CoR/outstandings: cost of risk for the quarter multiplied by four divided by the outstandings at the start of the current quarter.

(*) Including non-provisioned losses.

CRÉDIT AGRICOLE GROUP Q3-25 HIGHLIGHTS

COST OF RISK BY BUSINESS LINE

Cost of risk/outstandings⁽¹⁾ (bp)

- ➔ **CAPFM:** €20m in additions to provisions for legal risk (UK car loans). Excluding legal provisions, CoR slightly deteriorated, mainly on international activities
- ➔ **CA Italia:** up this quarter; asset quality and coverage ratios stable and at a good level
- ➔ **CAL&F:** slight deterioration in leasing, driven by professional markets and SMEs
- ➔ **Retail Banking in France:** stable, notably high for professionals
- ➔ **Financing activities:** maintained at a low level, including transfers from stage 2 to stage 3

1. Cost of risk for the last four quarters divided by the average of the outstandings at the start of all four quarters of the year.

CAPITAL, LIQUIDITY & FUNDING

BUFFERS ABOVE DISTRIBUTION RESTRICTIONS THRESHOLD

Crédit Agricole Group

30/09/25 Phased-in solvency ratios

Distance to 30/09/25 SREP requirements

Distance to MDA restrictions⁽¹⁾

- Systemic risk buffer
- Countercyclical buffer
- G-SIB buffer⁽³⁾
- Conservation buffer
- Pillar 2 requirement (P2R)⁽³⁾
- Pillar 1 minimum requirement

Crédit Agricole S.A.⁽²⁾

- (1) According to CRD5, institutions must meet the combined buffer requirement (consisting of the capital conservation buffer, countercyclical buffer and systemic buffer). Failure to do so means the bank must calculate the Maximum Distributable Amount (MDA). The lowest of the distances between the actual ratios and the corresponding regulatory requirements is the distance to the Maximum Distributable Amount (MDA) trigger threshold. From 1/1/2023, G-SIIs shall also maintain, in addition to the leverage Pillar 1 minimum requirement, a leverage ratio buffer requirement equal to 50% of the G-SII buffer rate. The leverage ratio buffer requirement shall be met with Tier 1 capital only. When a G-SII does not meet the leverage ratio buffer requirement, it shall calculate the Leverage Maximum Distributable Amount (L-MDA). Only Crédit Agricole Group is a G-SII. Crédit Agricole S.A. is not subject to these requirements. The distance to L-MDA trigger threshold equals the distance to CAG overall leverage ratio requirement. The lowest between the MDA and L-MDA thresholds determines the distance to distribution restriction.
- (2) Distributable items at end December 2024 for CASA (individual accounts) amount to €42.9bn (including reserves of €29.6bn and share issue premium of €13.3bn).
- (3) Credit Agricole Group has been notified by the European Central Bank for a change in Pillar 2 Requirements (P2R) applicable as of 1st January 2025 (i.e. 1.80% compared to 1.75% in 2024; no change of the Pillar 2 Requirements applicable to CASA – i.e. 1.65% in 2025). It has also been notified by the ACPR of an increase of the additional capital requirement (“GSIB buffer”) from 1% to 1.5% of total risk weighted assets as of 1st January 2026.

CAPITAL, LIQUIDITY & FUNDING

CAPITAL PLANNING TARGETING HIGH SOLVENCY LEVERAGE RATIOS

Tier 1 ratio

Phased-in at 30/09/25

Requirements at 30/09/25

Leverage ratio

Phased-in at 30/09/25

Requirements from 30/09/25

- **Solvency ratios** well above SREP requirements⁽¹⁾: CET1 buffer of 7.7pp for CA Group and 2.9pp for CASA at 30/09/25
- **Leverage ratio** above SREP requirements⁽²⁾: buffer of 2.1pp for CA Group (representing c. €47 bn ⁽³⁾) and 0.9pp for CASA (representing c. €13 bn ⁽³⁾) at 30/09/25

(1) Countercyclical buffer at 77bp at end-September 2025 for CA Group and 66bp for CASA. Systemic risk buffer at 11bp at end-September for CA Group and 18bp for CASA.

(2) According to CRD5, from 1/1/2023, G-SIIs shall maintain, in addition to the leverage Pillar 1 minimum requirement, a leverage ratio buffer requirement equal to 50% of the G-SII buffer rate. The leverage ratio buffer requirement shall be met with Tier 1 capital only. Only Crédit Agricole Group is a G-SII. Crédit Agricole S.A. is not subject to these requirements.

(3) Leverage exposure of €2,203 bn for CA Group and €1,456 bn for CASA at 30/09/25.

CAPITAL, LIQUIDITY & FUNDING

TLAC AND MREL WELL ABOVE MINIMUM REQUIREMENTS, THE DISTANCE TO THE TLAC REQUIREMENT IS THE TIGHTEST BUFFER

* Distance to M-MDA

- **TLAC** ⁽¹⁾⁽²⁾ is the ratio among risk-based resolution requirements that stands closest to its regulatory minimum levels applicable at 30/09/25. TLAC ratio stands nevertheless well above requirement, respectively by 5.2pp RWA and 1.5pp leverage exposure at end-September 2025.
- **Subordinated MREL** above requirements⁽³⁾ : 27.6% RWA and 8.2% LRE.
- **Total MREL** above requirements⁽³⁾ as well.

- (1) Credit Agricole Group shall meet at all times the following TLAC requirements: 18% of risk-weighted assets, with a combined buffer requirement (CBR) stacking on top of that level according to CRD5 (including a 2.5% capital conservation buffer, a 1% G-SIB buffer, a countercyclical capital buffer and a systemic risk buffer); and 6.75% of leverage risk exposure (LRE).
- (2) As part of its annual resolvability assessment, CAG has chosen to continue waiving the possibility offered by Article 72b(3) of the Capital Requirements Regulation to use senior preferred debt for compliance with its TLAC requirement in 2025
- (3) Total and subordinated MREL requirements are decisions notified by Resolution Authorities and will be revised periodically. At 30/09/25, the total MREL requirements are set at 21.79% RWA (plus the CBR) and 6.25% LRE; the subordinated MREL requirements are set at 17.19% RWA (plus the CBR) and 6.25% LRE.

Coverage ratio (incl. collective reserves)	95.3%	96.5%	94.9%	94.6%	93.1%

Principal amounts, excluding finance lease with customers, excluding intragroup transactions within Crédit Agricole and accrued interest.

Since Q1-19, loans outstanding included in credit risk indicators are only loans to customers, before impairment. Figures from previous years for impaired loans ratios and coverage ratios have been restated according to the same methodology.

Coverage ratios are calculated on the basis of outstandings, not netted for available collateral and guarantees.

CRÉDIT AGRICOLE MUTUAL GROUP: CUSTOMER-FOCUSED UNIVERSAL BANKING MODEL

The Local Credit Co-operatives form the foundation of the Group and hold nearly all of the share capital of Crédit Agricole's Regional Banks, which in turn are the majority shareholders of Crédit Agricole S.A. through SAS La Boétie

- **Local Credit Co-operatives:** Private law co-operative companies owned by their members, owning 100% of the voting rights and the majority of the share capital of the Regional Banks; no branches
- **Regional Banks⁽²⁾:** Private law co-operative companies and individually licensed banks, forming France's leading retail banking network; majority owned by Local Credit Co-operatives, Sacam Mutualisation (~25% through CCI/CCA) and, for 13 of them, by retail and institutional investors through non-voting listed shares with rights on net assets
- **SACAM Mutualisation:** An entity wholly owned by the Regional Banks for the purpose of pooling part of their earnings.
- **SAS La Boétie:** The HoldCo managing, on behalf of the Regional Banks, their 63.0% equity interest in Crédit Agricole S.A.
- **Crédit Agricole S.A.:** A listed company of Group subsidiaries company and the Central Body of the Crédit Agricole Network, of which it is a member according to the French Monetary and Financial Code; at the same time, the holding and functionally, the lead institution of the Crédit Agricole Group

(1) As of 31 December 2024

(2) The Regional Bank of Corsica, which is 99.9% controlled by Crédit Agricole S.A., is also a shareholder of SACAM Mutualisation and SAS La Boétie

(3) As of 30 September 2025

APPENDICES

INTERNAL SUPPORT MECHANISMS

Crédit Agricole S.A. obligations under the Financial & Monetary Code

Crédit Agricole S.A., as the Central Body and as a member of the Crédit Agricole Network

- Acts as Central Bank to the Crédit Agricole Regional Banks in terms of refinancing, supervision and reporting to the Supervisory Authority
- Reviews and monitors the credit and the financial risks of its affiliated members - essentially the Regional Banks and CACIB.
- Is required (cf. Article L511-31) to take all necessary measures to ensure that each and all of the Crédit Agricole Network members - essentially the Regional Banks and CACIB - (defined in Article R512-18) maintain satisfactory liquidity and solvency; this requirement, being enshrined in law, it is considered to be even stronger than a guarantee.

Resolution framework for the Crédit Agricole Network

In the transposition of Directive 2019/879 of 20 May 2019 “BRRD2” by Order 2020-1636 of 21 December 2020, the French Law expressly provides the specificities of resolution of a cooperative group composed of a Central Body and affiliated entities

- For cooperative banking groups, the “extended single point of entry” (“extended SPE”) resolution strategy is favoured by the resolution authorities, whereby resolution tools would be applied simultaneously at the level of Crédit Agricole S.A. and the affiliated entities. In this respect, and in the event of a resolution of the Crédit Agricole Group, the scope comprising Crédit Agricole S.A. (in its capacity as the Central Body) and the affiliated entities would be considered as a whole as the extended single point of entry. Given the foregoing and the solidarity mechanisms that exist within the Network, a member of the Crédit Agricole Network cannot be put individually in resolution.
- **With respect to the Central Body and all affiliated entities, the resolution authorities may decide to implement, in a coordinated manner, write-down or conversion measures and, where applicable, a bail-in. In such an event, write-down or conversion measures and, where applicable, bail-in would apply to all entities within the Crédit Agricole network, regardless of the entity and regardless of the source of the losses.**
- In the event that the resolution authorities decide to put the Crédit Agricole Group in resolution, they will first write down the CET1 instruments (shares, mutual shares, CCI and CCA), additional Tier 1 and Tier 2 instruments, in order to absorb losses, and then possibly convert the additional Tier 1 and Tier 2 instruments into equity securities^[1]. Then, if the resolution authorities decide to use the bail-in tool, the latter would be applied to debt instruments^[2], resulting in the partial or total write-down of these instruments or their conversion into equity in order to absorb losses. The creditor hierarchy in resolution is defined by the provisions of Article L 613-55-5 of the CMF, effective as at the date of implementation of the resolution.
- Equity holders and creditors of the same rank or with identical rights in liquidation will then be treated equally, regardless of the group entity of which they are creditors. Investors must then be aware that there is therefore a significant risk that holders of shares, mutual shares, CCIs and CCAs and holders of debt instruments of a member of the Network will lose all or part of their investment if a resolution procedure is implemented on the Group, regardless of the entity of which they are a creditor.
- This resolution framework does not affect the legal internal financial solidarity mechanism enshrined in Article L. 511-31 of the French Monetary and Financial Code, which applies to the Crédit Agricole Network, as defined in Article R. 512-18 of the same Code. Crédit Agricole S.A. considers that, in practice, this mechanism should be implemented prior to any resolution procedure.

Regional Banks’ joint and several guarantee

- Through **a joint and several guarantee** issued in 1988, the Regional Banks guarantee all of the obligations of Crédit Agricole S.A. to third parties and they also cross-guarantee each other, should Crédit Agricole S.A. become insolvent and after the liquidation and dissolution of Crédit Agricole S.A.
- The potential liability of the Regional Banks under this guarantee is equal to the aggregate of their share capital, reserves and retained earnings, i.e. €92.9bn* as of September 2025.

* Aggregate figures from French GAAP, audited individual accounts of the 39 Regional Banks [1] Articles L. 613-48 and L. 613-48-3 of the CMF. [2] Articles L. 613-55 et L. 613-55-1 of the CMF

Reciprocal binding commitments between the Regional Banks and Crédit Agricole S.A.

The alignment of the issuer ratings of the Regional Banks and CACIB with those of Crédit Agricole S.A. reflects the support mechanisms within the Group

APPENDICES

TRANPOSITION OF BRRD2 IN FRENCH LAW: A SPECIFIC TREATMENT FOR COOPERATIVE BANKS

- **Directive 2019/879 of 20 May 2019 (“BRRD2”) was transposed into French law and is applicable since 28 December 2020**
- **The law expressly provides resolution specificities for French cooperative banking groups**
- **Assessment of conditions of a resolution procedure at the level of the Network**
 - ❖ The resolution authorities will treat the Central Body and its affiliated entities (“Network”) as a whole when assessing the conditions to enter in resolution
- **Resolution and “Coordinated bail-in”**
 - ❖ In case of a bail-in, write-down or conversion measures will apply simultaneously to all entities within the Network
 - ❖ Equity holders and creditors of the same rank* or with identical rights in liquidation will then be treated equally, regardless of the Network entity of which they are investors and regardless of the source of the losses
- **Liquidation and respect of the “no-creditor-worse-off” principle**
 - ❖ A Central Body or one of its affiliated entities could be declared in compulsory liquidation only when the Central Body and all its affiliated entities are also in cessation of payments
 - ❖ A sole liquidator will be designated for the entire cooperative group and will ensure that the holders of equity and creditors of the same rank* or with identical rights in liquidation will be treated equally, regardless of the Network entity of which they are investors and regardless of the source of the losses

➔ **The single point of entry resolution strategy preferred by the resolution authorities for Crédit Agricole Group can be considered as an “extended SPE”**

➔ **MREL at consolidated level, when applicable under BRRD2, will be fulfilled with eligible liabilities of Crédit Agricole SA and the affiliated entities**

*According to the creditor hierarchy in resolution as defined by the provisions of Article L 613-55-5 of the CMF, effective as at the date of implementation of the resolution.

APPENDICES

“DANISH COMPROMISE”: NON-DEDUCTION OF INSURANCE HOLDINGS

The “Danish compromise”

Non-deduction of insurance holdings according to Article 49⁽¹⁾ of the CRR

- In the case of banks within a financial conglomerate under Directive 2002/87/EC, the CRR provides for a specific prudential treatment of insurance holdings. As a general rule, Article 36(1) of the CRR envisages that significant holdings in insurance undertakings should be deducted from banks’ own funds. As an exception to this rule, Article 49(1) of the CRR grants the option to competent authorities, if requested by banks, to allow them not to deduct such holdings and to risk-weight them instead (100% to 370%), provided that a number of CRR conditions are met.
- These departures from Basel III were included early in the elaboration of the CRR as a package known in specialised circles as the “Danish compromise”, since it was negotiated during the Danish Presidency of the Council of the EU.

Status quo for the “Danish compromise” in the ECB Regulation

ECB Regulation on the exercise of options and discretions available in Union law

- Crédit Agricole Group received the permission of the competent authorities (ACPR) on 18 October 2013 to use this option for entities within the Crédit Agricole Assurances scope.
- Since 2014 the ECB has the power to exercise the options and discretions available in Union law and it published on 24 March 2016 a Regulation and a Guide on how to harmonise options and discretions in banking supervision.
- The ECB Regulation and Guide do not reconsider previous decisions taken by the competent authority pursuant to Article 49(1) and related explanatory documents confirm that the ECB did not intend to do so at that time:
 - “With regard to the non-deduction of holdings within the context of Article 49(1) of the CRR, significant credit institutions can expect the following treatment: (i) In cases where permission for non-deduction has already been granted by the national competent authority prior to 4 November 2014, the credit institutions may continue to not deduct the relevant holdings on the basis of that permission provided that appropriate disclosure requirements are met.” (Extract from the ECB Guide)
 - “The Supervisory Board has decided to keep the status quo, i.e. decisions according to Article 49 of the CRR taken before 4 November 2014 will continue to apply for the time being. Incoming applications for new decisions will be assessed according to the CRR criteria.” (Extract from the Explanatory memorandum)
- On 25 July 2025, the ECB published an updated guide clarifying the harmonised approach to policy choices under EU law regarding general principles:
 - With regard to the non-deduction of insurance holdings under Article 49(1) of CRR3 from 2025, the revised guide extends the risk-weight treatment, previously limited to CET 1 equivalent instruments only, to all insurance own funds equivalent instruments (i.e. incl. AT1 and Tier 2 instruments). However, no change to the treatment of insurance CET 1 equivalent instruments were introduced in the updated guide.

Any change to the “Danish compromise” rule would suppose a new revision of the CRR.

CAG AND CASA EXPOSURE TO CORPORATE REAL ESTATE

Limited exposure to commercial real estate⁽¹⁾ at end-June 2025

Commercial lending of €56.6bn for CAG, €31.3bn for Crédit Agricole S.A.

- of which ~€14.2bn for office real estate, ~€10.2bn for commercial spaces and ~€15.9bn for residential real estate (respectively ~€9.4bn, ~€5.3bn, ~€6.3bn for Crédit Agricole S.A.)
- of which €25.3bn Regional Banks, €22.1bn Crédit Agricole CIB, €5.3bn LCL and €1.4bn CA Italia

Representing 3.1% of commercial lending CAG, 2.7% at the level of Crédit Agricole S.A.

Good quality of commercial real estate assets and risks under control at end-June 2025

LTV (loan to value): 70% of CAG exposures with an LTV < 60%, 77% for CASA⁽²⁾

High quality of CRE portfolio: 69% of exposures are **Investment Grade** for GCA and 83% for CASA⁽³⁾

Low default rate in commercial real estate: 2.2% for CAG and 2.0% for CASA⁽⁴⁾ and S3 **coverage ratio** of 56% for CAG and 56% for CASA.

1. Balance sheet and off-balance sheet; the scope includes property developers, listed and unlisted REITs, specialised investment funds, real estate investors, and real estate subsidiaries of financial institutions (insurers, banks, etc.); This scope is slightly different from the exposures to corporate real estate presented in the registration document, which notably includes real estate financing contributed from corporate clients.
2. LTV calculated on 68% of exposures to real estate professionals for CAG and 70% of CASA exposures,
3. Internal rating equivalent
4. Default rate calculated with on- and off-balance sheet exposures as the denominator.

France – Household and corporate leaders' confidence

Sources: Insee. Crédit Agricole SA/ECO. Data at June 2025

LENDING IS BASED ON BORROWER SOLVENCY

A cautious origination process that implies low risk characteristics of loans

- In France, home loan granting based on the borrower's disposable income (not the value and quality of the asset). The ratio of debt service to income (DSTI) must not significantly exceed 35%.
- Average DSTI has been around 30%. Average LTV at origination was 77,7 % in December 2024.
- Loans are almost always amortising, with constant repayments. More than 99% of home loans have a fixed rate until maturity. Average home loan term was 23.7 years in June 2025.
- French home loan market is largely based on guarantees provided by *Crédit Logement* and home loan insurance companies.
- Non-performing loans ratio for home loans is very low, at around 1%.

STRUCTURAL FUNDAMENTALS

Strong demand-side factors

- Lower rate of home ownership (61.2% of owner-occupiers in 2024) compared to EU countries (68.4%).
- Other factors support demand (divorce, moving out process, retirement planning, limited supply of rental accommodation, housing often perceived as a “safe haven” investment).
- Higher demand towards more comfortable housing (terraces, houses with gardens), due to the health crisis, and the development of work from home.

Weak supply

- Structural housing deficit in France: between 300,000 and 400,000 units to be built per year by 2030 according to different studies.
- Low level of building permits issued acts as a factor penalising the housing supply in the long run.
- Housing starts particularly low and insufficient to meet demand: linked to the scarcity of land, delays in obtaining permits.

A RESILIENT MARKET

The French market did not experience a bubble / excessive risk-taking, as seen in the US, the UK, Ireland or Spain between 1998 and 2007. The 2008-2009 recession put an end to the boom.

- In France, the correction was limited, as prices were globally stable between 2008 and 2014, to be compared with a cumulative decline in prices of 32.2% in Ireland, 27.5% in Spain, -16.9% in the Netherlands and 14.3% in Italy. In the UK, prices dropped by 13.9% between end-2007 and end-2012.

In France, the market rebounded sharply between 2015 and 2021, with housing sales reaching record levels and prices accelerating, albeit moderately.

- For existing homes, sales have risen sharply since the low in 2013 (665,000), surpassing the former 2006 high (841,000) as early as 2016, and reaching a record level in 2021 (1.251 million). Prices recovered gradually between 2015 and 2019 (+2.9% p.a. on average), then accelerated (+6.8% p.a. between end 2019 and end 2021), slowing to +4.5% p.a. by end 2022.
- For new-built homes (developer segment), the sales jumped by 16.3% per year over 2014-2017, from 83,000 to 130,000, just above the 2007 peak. They remained stable until 2019 before starting to reduce. Prices rose by an average of 2.9% a year between the end of 2014 and the end of 2020, before accelerating over the following two years (+5.4% a year).

In 2020-2022, the French housing market remained buoyant despite the Covid-19 pandemic. It began to correct in 2023, with rising interest rates accelerating its necessary normalization.

- Between 2022 and 2023, rise in home loans interest rates undermined households' ability to buy property, at a time when high inflation has eroded their purchasing power, and high geopolitical uncertainties weighed on their confidence. Home loans interest rates reached 3.6% (excl. insurance) in December 2023.
- In 2023, sales of existing homes higher than the 2010s average (932,000 in 2023 vs. around 840,000 in the 2010s). Prices had fallen since end-2022 (-3.9% yoy at the end of 2023).
- 65,000 new-build homes were sold in 2023, a 36.9% drop compared to 2022. Prices were quite stable (-0.7% yoy at the end of 2023).

Home prices: average year-on-year growth (year-end, %)

France: year-on-year change in house prices (%)

ECONOMIC ENVIRONMENT FACTORS

After a decline in 2024, the residential real estate market rebounded in S1 2025

- The 10-year OAT has fluctuated between 2.7% and 3.2% since December 2023. Banking competition has led to a continuous decrease in mortgage rates in 2024, reaching 3.1% in December, then 3.01% in August 2025.
- **Second-hand home market** (around 80% and 90% of sales)
 - > In 2024, **845,000 second-hand homes** were sold over one year, a **9.3% loss over one year** (compared to 1.2 million in 2021). In August 2025, **912,00 units** were sold, a sign of recovery in this market.
 - > **Prices had adjusted on a year-on-year basis since 2023 (-3.9% yoy in Q4 2024)**. Bans on renting out low energy efficiency homes has led sellers of these types of goods to lower their prices. In the Q2 2025, prices of second-hand homes **rose by 0,3%** compared to Q2 2024, as their real estate purchasing power improved during this period.
- **Newly-built home market**
 - > In addition to the drop in demand, the new-build market has been recently confronted with **supply constraints**: rising construction costs and inflation of technical standards and environmental requirements.
 - > In 2024, **61,300 newly-built homes** were sold over one year (near its historical lowest level), a 6.7% drop over one year. In Q2 2025, 59,200 new homes were reserved over a one-year period.
 - > As sales remained quite stable in 2024, **prices remained relatively stable (+0.4% yoy in 2024)**. In Q2 2025, prices **rose by 2,1%** in this segment compared to Q2 2024.

What situation in the 2026?

- **Favorable macroeconomic factors** (disinflation, higher gross disposable income, sustainable low unemployment rate albeit a slight rise) have supported a recovery in existing home sales in 2025. Even though these factors are meant to work in favor of a recovery of demand, upward pressure on interest rates are set to stall the rebound.
- Low levels of newly-built home sales would persist as the Pinel tax deduction scheme was not renewed for 2025. No new scheme is yet expected to be implemented in 2026.
- Prices of second-hand dwellings are set to rise slightly in 2025, as buyers purchasing power is expected to remain higher than previous years. In 2026, the increase of prices should be higher but still moderate, because of constraints on long term interest rates.
